

**CLAIMS:**

1. A system for displaying images comprising:
  - (a) a base;
  - (b) a movable, arcuate-shaped receptacle that rotates into and from the base;
  - (c) a display attached to the receptacle so that the display is visible when the receptacle is rotated from the base and the display is partially or entirely not visible when the receptacle is rotated into the base.
2. The system as in claim 1, wherein the display is a flat-panel display.
3. A self-propelled vehicle for moving in air, on land or on water, the vehicle comprising:
  - (a) a system for displaying images comprising:
    - (i) a base;
    - (ii) a movable, arcuate-shaped receptacle that rotates into and from the base;
    - (iii) a display attached to the receptacle so that the display is visible when the receptacle is rotated from the base and the display is partially or entirely not visible when the receptacle is rotated into the base.
4. The self-propelled vehicle as in claim 1, wherein the display is a flat-panel display.
